CAREER OBJECTIVE

7+ years of experience as a software engineer, with a focus on front-end development. Proven track record in developing high-quality and scalable web applications. Expertise in HTML, CSS, JavaScript, ReactJS, and NodeJS. Passionate about web standards and keeping up with the latest trends in technology.

WORK EXPERIENCE

Senior Front End Developer

Menefex

📅 Dec 2021 - Nov 2022   📍 Amsterdam, Netherlands

- Mentored 8 team members, enabling them to achieve professional growth and personal goals.
- Reduced average valuation review time by 33%, and saved service providers an average of 92% due to click-fee reductions.
- Mentored 3 new junior front-end developers on team in expanding **JavaScript, React,** and **Angular** skillset.
- Developed a node.js server to validate membership and track digital badges being used, saving the company $37.9K.
- Created new documentation for **MaterialUI** that prevented the need for a 2-week onboarding course.
- Designed and developed 10+ front-end and back-end applications utilizing **React.js, Node.js**, and **TypeScript**

Senior Front End Developer

Port Zero

📅 Aug 2019 - June 2020   📍 Berlin, Germany

- Analyzed 24+ user requirements to derive technical **software design** and **performance** requirements
- Participated in the planning and execution of 7+ business continuity/disaster recovery exercises
- Rebuilt 4-year-old SaaS application in **React 15** and **Redux** with full user experience redesign to release a beta **MVP** in 7 months.
- Documented 100% of technical specifications and dependencies of applications
- Participated in 100+ weekly **code reviews** to ensure **code quality** and **system efficiency**

Junior Front End Developer

E-Sea

📅 Aug 2017 - May 2019   📍 Tokyo, Japan

- Developed real **estate valuation, analytics,** and **platform technology solutions** as part of a 4-person team.
- Designed, developed, and modified 7+ **software systems** and **custom components**
- Documented 100% of technical specifications and dependencies of applications
- Analyzed **systems flow**, **data usage**, and **work processes**; investigated 100% of problem areas
